

COPPER SOLUTION

UNLOADED PATCH PANEL FOR UTP/FTP NETWORK SOLUTION 24 PORTS QUIK CABLE MANAGEMENT

Description:

The ORCA® System complies with all of the performance requirements for current and proposed applications such as Gigabit Ethernet, 100BASETx, token ring, 155 Mbps ATM, 100 Mbps TP-PMD, ISDN, analogue (broadband, baseband) and digital video and analogue and digital (VoIP) voice. This slim profile can host up to 24 keystone UTP or FTP, on a single rack unit with simple and pleasant design. The cable manager may also be used to reduce stress on cable at point of termination, quick to fix.

General Future:

1 unit high	Holds up to 24 slim version keystone jacks
Made of SPCC + ABS	Metal and Black color
Removable cable management with 24 cable automatic clips	
All CAT5e, 6 and 6A unshielded and shielded keystone modules can be applied, with ground wire included	
Label icon	RoHS compliant

All components and the final product are designed and tested to conform the requirements of TIA/EIA-568-B.2 and compatible with ORCA slim version Jacks.

Specifications subject to change without prior notice - For more details please visit www.orca.it
